## 12. Exemptions Granted due to Covid-19 - May/June 2022

Schools have been given the option of applying for exemptions for certain subjects/components which they have difficulty in preparing students for the June 2022 examination due to the following reasons associated with COVID - 19.

- The teaching and/or assessment of the component requires access to facilities and equipment that has not been possible due to COVID - 19 disruption, e.g. instruments, laboratories, studios, audiovisual equipment, sports facilities, specific software, specialist materials.
- The teaching and/or assessment of the component requires ways of working with others, e.g. in pairs, groups or teams, which have not been possible due to Covid-19 disruption.

However, Cambridge International has highlighted some specific risks associated with COVID-19 exemptions that schools, candidates and candidates' parents must be fully aware of, such as;

- The risk of the candidate's grade being less representative of their ability is greater if they complete a smaller percentage of the assessment.
- Candidates who are absent for an acceptable reason from a non-exempt component (including, for example, illness, the need to self-isolate, or a 'lockdown' on the date of the exam) may not have sufficient evidence for us to calculate and award an assessed mark for the component they were absent for. They would therefore receive 'NO RESULT'.

Considering all the above-mentioned points and consulting relevant Subject Heads and Teachers, the School Management / School Exam Board has decided to request exemptions for some of the subject components. The decision was taken due to fact that we were unable to equip the students with the knowledge needed to go ahead with the exam, as these lessons were required to be practically covered.

Subjects and option codes that the school will request for exemption are given in the attached table.

Please note that **all students should apply for the normal option code mentioned in the subject list** which will be sent along with this document or consult your subject teacher for further information before registering for the examination.

The school has already communicated the exemption subject details to candidates and the school will apply for exemptions for the mentioned subjects on behalf of all students.

Your school will apply for exemptions for the mentioned subjects on behalf of all students.
